We have created this map to help you find non-profit organizations that can guide you through every step in creating, growing and certifying your business or business idea.

The information is based on the websites of organizations, experiences with their programs and their capacity and community impact. All organizations have Spanish speaking staff unless mentioned. Many of them offer classes in Spanish. Contact them directly. If you know an organization that should be included or have comments about the map, email us at:

info@lcfgeorgia.org

3 Improving my bussiness

I am incorporated and want to do better
